that are cool and refreshing as an ocean breeze If you want cool comfort with the style element proscunced in every line of the garment, then by that we have provided for hot weather wear.

There are the crisp Palm Beaches, the smart Mohairs and soft flannels—an almost unlimited pariety of them. They cost little too. It's really an economy to wear them.

SPECIAL TO WOMEN

Our stock of goods for summer wear is very complete and especially attractive, both in design and price. The order for most of these goods was placed many months ago, before the starp advance in price, and we are selling them even at a close margin of profit over the low prices we paid. This makes it especially attractive to you. The same prices will prevail as long as the goods last.

Advertising---The Place to Put It.

No merchant should neglect an opportunity to tell many good things about a stock which has good points, and no merchant can afford to have a stock about which he cannot honestly tell some good things.

Advertising to be worth while must say something worth saying and must get the attention of someone worth reaching as a customer. It isn't always possible to select the one to whom it is desired to sell goods, but it is necessary to get the interest of the many in the hope of reaching in the lot those who have wants which must be supplied and to supply them in a way which will bring them back a gain for similar things.

It isn't a cheap article that makes a good value, but a good thing that sells for a fair price makes the buyer feel that he got his money's worth and gives him a friendly feeling for the seller.

There are many people who will trade only in stores where the goods are advertised. No one ever heard of a person looking for a store which did not advertise. Therefore if many people are looking for the wideawake advertiser, and no one is discriminating against him, that in itself ought to be reason for the use of all the advertising a store can carry.

Advertise-You Can't Afford to Quit It.
